

Weird Bum of the Year

I only like albums that are really unique...my musical tastes have always been a bit different from the mainstream.

Hear what critics have to say:

-  "...utterly indulgent, the musical equivalent of a rich celebrity and their extravagant lifestyle..."
-  "...a joyous celebration of the stay-at-home mother, reminding us that caring for the family is work enough..."
-  "...hits with all the energy of being stabbed in the gut, yet leaving you feeling quite like yourself again..."
-  "...a delightful juxtaposition of sounds classic and new, like fan-fiction that places a Baroque composer in a 20th century young adult novel or as far back as the Bible..."
-  "...tense and on-edge, like trying to make zero noise while in the restroom..."
-  "...an anthem of defiance, like an organism immune to most forms of pathogens (except viruses)..."
-  "...atonal and absurd, a fitting theme song to accompany Jim Carrey over the entirety of one of his most cartoonishly lunatic roles..."
